The Science of *Karma* | What is *karma*? | Theory of *karma* in Indian philosophies | Metaphysical base of theory of *karma* -- Life in the Science of *Karma* | Characteristic of living substance | Birth of life in Jainism | Jaina view of *pariyāpti* and *prāṇa* -- Classification of *Karma* | Main Types (*mūla prakṛti*) of *karma* in Jainism | Auspicious and Inauspicious *Karma* | Darvya and BhāVa *Karma* | Sub Groups (*Uttaraprakṛti*) of eight main *karmas*-- Bondage of *Karma* | Causes of Bondage | Components of bondage process | Puṇya and pāpa | Relation with bondage and leśya -- Fruition of *Karma* | Process of energy during rise of *karma* | Puṇya and pāpa | 42 Types fruits of auspicious *karma* 80 Types fruits of inauspicious *karma* -- Eradication of *Karma* | Sanvara | Nirjarā | Caritra | Mahāvratas | Anuvratas | Triple Jewels—the pathway to emancipation -- Science of Genetics | An introduction to the science of Genetics | Characteristics of genes | Characteristic of Genome -- Life in the Science of Genetics | Characteristics of living being | Organization of the cell | Characteristics of chromosomes - Genetic Codes in DNA and RNA | DNA | RNA | RNA—The Process of Transcription | Genetic Codes | Classification of Genes -- Gene Mutation | Factors causing mutations | Genes and diseases | Role of faulty genes in chromosomes -- Genetic Engineering | Genetic Engineering and its application | Impact of Genetic Engineering | Preventive and social measures -- Comparative Study of *Karma* and the Science of the Genetics | Corelation between *karma* and *genes* | Effect of *karma* over genes | Spirituality (combination of spirit and *karma śāstra*) and *genes* | Life and *genes* | Classification of *karma* and *genes* | Function of *genes* on all 24 chromosomes | Role of *genes* in behavioural responses/personality | *Karma* and *Genes* | *arma* and genetic engineering

The Jaina Doctrine of Karma and The Science of Genetics

by: Dr. Sohan Raj Tater

xxxv, 384 p. ; 23 cm. (Hb)

2009

ISBN-13: 978-93-80009-02-5

ISBN-10: 93-80009-02-X

INR 1195.00

We have two kinds of determinants of body processes and behaviour of organisms—the Karma and the genes—the two seemingly diverse systems performing similar functions. This book makes a comparative study of the doctrine of Karma and the science of genetics.

Explaining the concept of Karma as known to various Indian philosophies, including Jainism, it deals with the concept of life in Jaina philosophy, and goes on to describe the classification, bondage, fruition and annihilation of Karma. Further discussing the developments in genetic science, along with its important aspects, it presents a comparative study of Karma and genes and brings out the fact that Karmas are the cause and genes are their effects.

Dr. Sohan Raj Tater (b.1947) is presently Pro Vice Chancellor of Singhania University, Pachari Bari (Jhunjhunu), Rajasthan. Earlier, he served in Public Health Engineering Department, Government of Rajasthan, for 30 years, and took voluntary retirement from the post of Superintending Engineer. Also, he is Honourary Advisor to Jain Vishva Bharati University, Ladnun.

A well-known scholar of Jainism, Dr. Tater has to his credit a good number of research papers published in national and international journals of repute. Also, he has participated in various seminars and conferences in India and abroad.
